

The Friends of Norris Cotton Cancer Center, with the support of Southern New Hampshire University, will host its annual "Seeds of Hope" fashion show to raise funds for patient services and cancer research at Dartmouth-Hitchcock Norris Cotton Cancer Center. Last year, this event raised almost \$20,000, with a three year total of over \$60,000, for patient services and cancer research at Norris Cotton Cancer Center.

The event will be held on Saturday, May 6, 2017 at the Southern New Hampshire University Event Center and will showcase outfits and designs from unique Southern New Hampshire clothiers. Dozens of volunteer models, including current Dartmouth-Hitchcock cancer patients and survivors, will strut their stuff on the catwalk and show off stunning pieces of fashion in a fun and festive evening.

Festivities will begin at 7 pm with feature cocktails, desserts elegantly prepared by local restaurateurs, a silent auction and live music. Tyler and Lauren Sullivan, from Paul Mitchell Northern New England, will serve as the Master and Mistress of Ceremonies.

Dartmouth-Hitchcock Norris Cotton Cancer Center has 15 locations throughout New Hampshire and Vermont, including centers at Notre Dame Pavilion in Manchester and at Dartmouth-Hitchcock Clinic in Nashua. This nationally recognized cancer facility combines advanced cancer research from Geisel School of Medicine at Dartmouth with patient-centered cancer care at Dartmouth-Hitchcock, and is one of only 40 Comprehensive Cancer Centers as designated by the National Cancer Institute.

The Friends of Norris Cotton Cancer Center is dedicated to supporting the services provided by Dartmouth-Hitchcock Norris Cotton Cancer Center, a world-renowned cancer treatment and research facility affiliated with The Geisel School of Medicine at Dartmouth and Dartmouth-Hitchcock Medical Center. The Friends began in 1982 and has helped raise more than \$23 million to support cancer research and patient services. This money helps fund world-class research, state-of-the-art equipment, critical education programs and innovative clinical trials that make a difference in the treatment of cancer patients all over the world. Funds from the Friends also go toward important Patient and Family Support Services that help ease the journey of cancer patients and their families, such as support groups, massage therapy, art and writing programs, transportation assistance and resource libraries.
